

WHAT'S NEW WITH USIIS?

Having issues logging into USIIS...

- 1. Please visit <http://idhelp.utah.gov> to establish your Utahid account if you have not done so already** This is a one time step, you do not need to do this if you have already done this once. Access the instructional video by clicking on the link and selecting the image labeled "Account Creation". If your email address in your existing Utahid account matches the one in USIIS, your account will link automatically.
- 2. Already set up Utahid, but can't get in? If you use an EHR vendor interface** contact your EHR vendor to request updated URLs. Your vendor has been contacted and should have new connection URLs.
- 3. When logging in to USIIS via web browser,** use Utahid instead of your old login.
