Off-site Clinic Pre-Checklist

Request by submitting the Off-Site Clinic Request form to vacteam@utah.gov.

All off-site clinics coordinated by Utah facilities using publicly-funded vaccine(s), must obtain approval from the Utah Immunization Program at least two weeks prior to the event. Before requesting approval for an off-site clinic, the facility must meet certain requirements. Additional information is required, with the submission of the request form, and at the end of the off-site clinic.

Date Submitted	Facility Name
Person Completing Checklist	

PRIOR TO REQUESTING APPROVAL FOR AN OFF-SITE CLINIC:				
Yes	No	Portable refrigerator/freezer and/or conditioned qualified pack-out designed to transport vaccines. • Soft-sided coolers and/or vaccine shipping containers are NOT allowed.		
Yes	Νο	 Digital data logger (DDL) with a current certificate of calibration that meets CDC requirements. DDL(s) are required for each portable refrigerator/freezer and/or qualified certified pack-out. Detachable buffered probe that best reflects vaccine temperatures (e.g., a probe buffered with glycol, glass beads, sand, or Teflon®). Alarm for out-of-range temperatures. Low-battery indicator. 		
Yes	Νο	 The ability to document and record temperatures every hour during the duration of the off-site clinic. Date, time and staff initials are required every hour during the duration of the off-site clinic. Documentation will be required. 		
Yes	No	Inventory of Federal/State supplied vaccines for off-site clinic(s).		
		• Vaccine Type • NDC • Lot Number • Expiration Date • Quantity		
Yes	No	All vaccine forms, including but not limited to:• VFC eligibility screening tools• Current VIS (paper or electronic form)		
Yes	No	In the event of a temperature excursion, an emergency response plan is in place to allow for immediate action. • Additional information will be required.		
Yes	No	Emergency medical kit is available at the off-site location for the duration of the clinic. • Including epinephrine and equipment for maintaining an airway.		
Yes	No	 All vaccination providers at the off-site clinic are certified in CPR and must be: Familiar with sign and symptoms of anaphylaxis, know their role in the event of an emergency, and Know the location of epinephrine and have been trained in indications and use. 		
Yes	Νο	Adequate infection control supplies on site, including but not limited to:• Adhesive bandages• Hand hygiene• Sharp containers• Syringes• Biohazard containers• Sterile alcohol wipes• Sterile needles		

If you answered NO to any of the above requirements, you are not eligible to hold an off-site clinic and your request for approval will be denied. Please contact vacteam@utah.gov or Provider Relations Rep for additional assistance and guidance.

Facilities that hold off-site vaccination clinics without prior approval, may be terminated from the enrolled program(s), subject to fines and/or reimbursement. Contact vacteam@utah.gov for additional assistance.
