Functionality	
Immunization Forecast	
Recommended Due Date	First date of the ACIP recommended date range for the first or next dose in the series.
Minimum Due Date	First dose: minimum age for the series. Next dose: Minimum interval date based on the last dose.
Past Due Date	The day after the last date of the ACIP recommended date range for the first or next dose in the series.

Status	<p><u>Due</u> = forecast date is between the “Due” and “Past Due” dates.</p> <p><u>Overdue</u> = forecast date is after the “Past Due” date.</p> <p><u>Current</u> = series is not complete but ACIP does not yet recommend the next dose.</p> <p><u>Complete</u> = no dose or additional does is recommended by ACIP for the series.</p>
<b>Immunization History</b>	
Change display order	Click a column heading to order the list by that data.
Show  All entries	Select 10, 25, 50 or All to specify the number of immunizations to display at one time.
Search: <input type="text"/>	Type text in this field to filter the immunizations by Vaccine Names that match the text.
Code (underlined blue)	Link to display the Immunization Detailed screen with all information submitted to USIS for that immunization.
Forecast Violation	A ✓ in this column indicates the immunization is invalid based on a forecast violation. The immunization will not be considered as having been administered for purposes of forecasting the next dose.
Invalid Vaccine	A ✓ in this column indicates the immunization is invalid due to the administering provider having submitted an invalid code with the vaccine information. The immunization will not be considered as having been administered for purposes of forecasting the next dose.
Reaction	A ✓ in this column indicates the immunization is invalid based on a forecast violation. The immunization will not be considered as having been administered for purposes of forecasting the next does.
	Expands the line to display Administering Provider and Forecast Violation / Invalid Vaccine / Reaction—as applicable.
Previous & Next	These options are available if there are more immunizations in the history than display based on the “Show  All entries” selection.
